1. Introduction

Thank you for purchasing our product. The information provided is for guidance only and is subject to change without notice.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

This equipment has been tested and found to comply within the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and uses radiate radio frequency energy. If not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, you are encouraged to try to correct the interference by using one or more of the following methods:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

2. IC Caution.

This device complies with Industry Canada’s licence-exempt RSSs. Operation is subject to the following two conditions:
(1) This device may not cause interference; and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes:
(1) l’appareil ne doit pas produire de brouillage, et
(2) l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.

This equipment complies with IC RF radiation exposure limits set forth for an uncontrolled environment.

Ce matériel est conforme aux limites d’exposition aux rayonnements rf de ic énoncés dans un autre environnement.

3. FCC Caution.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

4. Safety Instructions

Safety instructions
1. Only place the device on stable surfaces with proper ventilation and out of direct sunlight. The device is only suitable for indoor use.
2. When cleaning the device or during prolonged periods of non-use, unplug the power supply.
3. When installing, make sure to leave at least 10cm space around the top, rear and sides of the device. The device is suitable for use at an altitude of 5KM and below.
4. In case of any device failure, do not disassemble the device. Please contact customer service.
5. Keep the device away from appliances with strong electric or magnetic fields such as microwave ovens, refrigerators and mobile phones.
6. Do not install the device near a heat source or open flame. Keep away from materials such as foam, cardboard or other flammable materials.
7. Do not expose the device to liquids or place anything filled with liquid on top. Use only a soft water-dampened cloth to clean the exterior of the device.
8. To prevent electric shock, use only the supplied power adapter in the power range supported. Keep the power supply clean; dry and clear of obstructions so it is easily removed from the receptacle if necessary. Never use the power supply if the power cable is frayed or damaged.
